

HESKINS LTD

PermaStripe®

Heskins is a specialist manufacturer of self adhesive anti slip systems and warehouse floor marking systems, we also produce the following materials that could be of interest;

Safety-Grip™

Our Safety-Grip is a tough and durable abrasive self adhesive anti slip system. We also make in non-abrasive formats including Aqua-Safe™, Resilient, H-4644™ and Cushion Grip. We produce in all size and shape formats, produce most colours as standard stock items, can print on it and even offer glow in the dark. Please enquire for our free sample pack to be sent directly to you, our large and informative web site is at www.heskins.com

Warehouse Markers

We make a large range of self adhesive warehouse markers, they are instantly applied and offer a highly visible warning or information message. They are coated with an anti slip surface and have a permanent adhesive. We can make to any design and in any language text.

PermaStripe®

The World's toughest aisle marking system
Instantly applied with no fuss
only available from Heskins

PermaStripe®

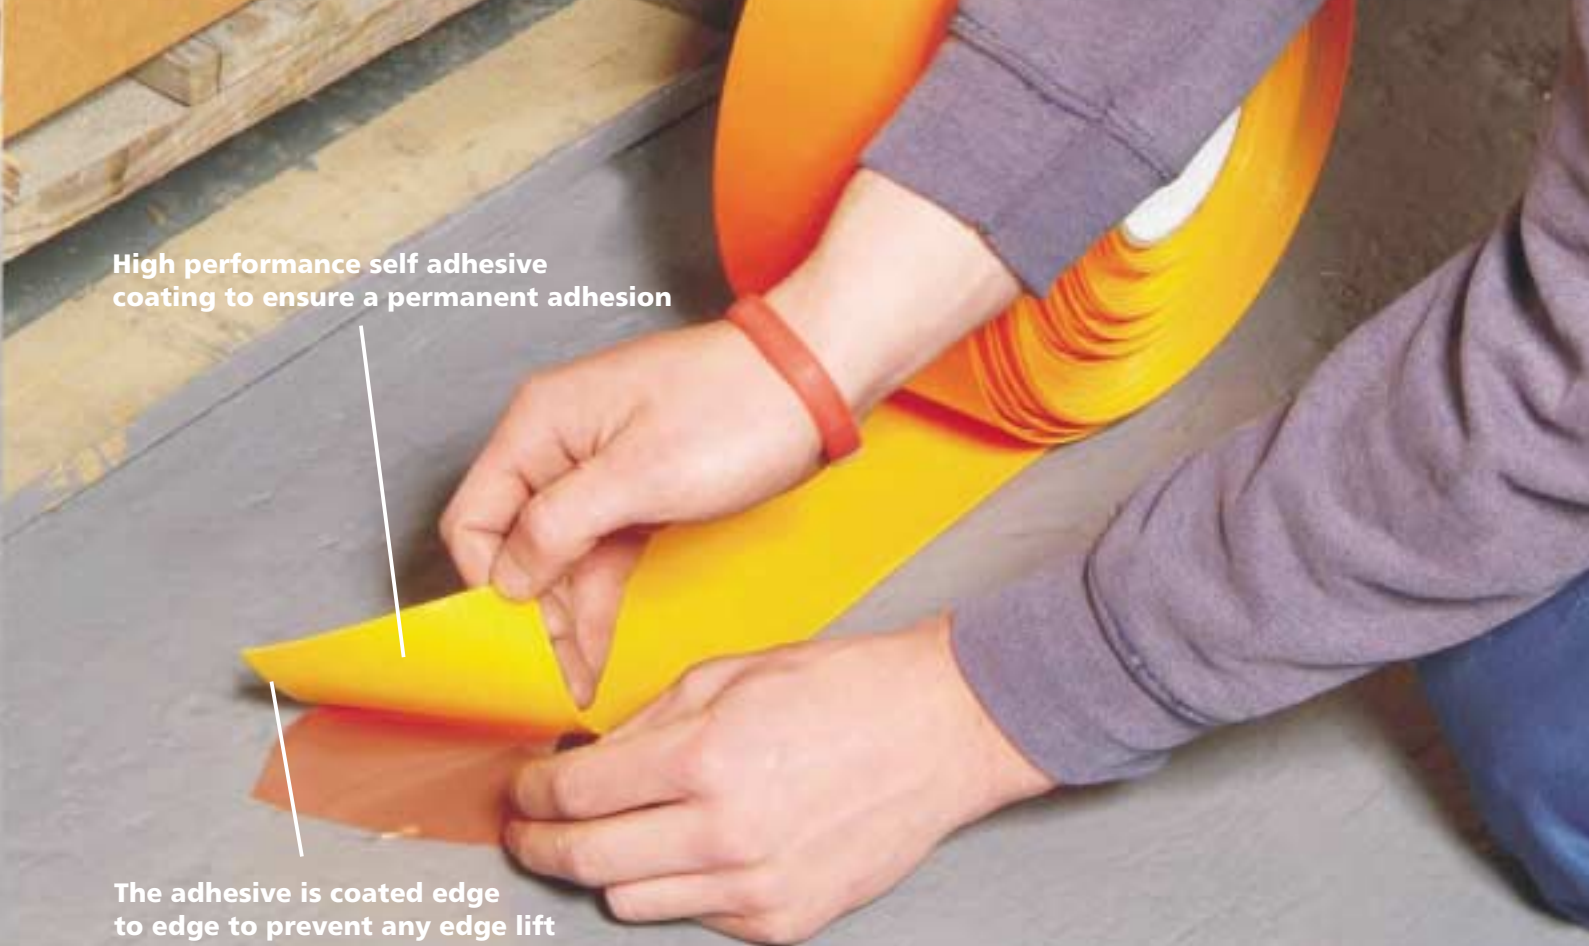

PermaStripe®

PermaStripe is the most durable and effective aisle striping system available, it helps to meet the 5S program in the modern workplace.

- No detailed preparation is required, unlike a painted marking system no fumes or contaminants are given off; it can be applied whilst the area is still being used.
- Installation could not be easier, simply peel back the liner and press down, Heskins also offer an applicator, this enables rapid installation of perfectly straight lines.
- There is no cure time unlike other marking systems - you have the stripe you want there and then!
- Extreme temperature resistance - all our range, once applied, performs down to -45°C
- 2 year warranty
- Available in a huge array of formats; rolls, shapes, numbers, letters, arrows and disks, we can even make to your distinctive custom requirement.
- A wide range of roll widths are available. 50mm and 100mm are the most popular but anything is possible, roll lengths of 30m are standard but can offer longer lengths providing less change time.

High performance self adhesive coating to ensure a permanent adhesion

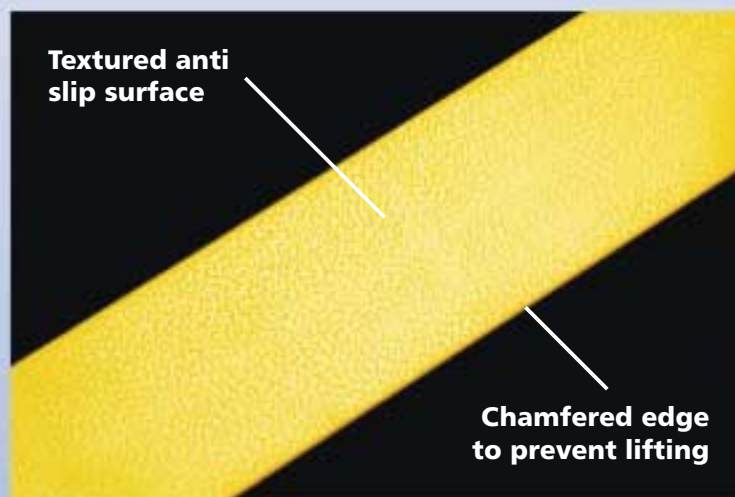

The adhesive is coated edge to edge to prevent any edge lift

2 YEAR WARRANTY

The Heskins warranty for PermaStripe® is conditionally warranted for 2 years from product purchase. Warranty claims are only limited to replacement of PermaStripe®.

The warranty does not cover items being dragged, pushed or scraped across such as pallets or transit skids.

Textured anti slip surface

Chamfered edge to prevent lifting

Any shape can be configured, we hold on our shelf PermaStripe® ready cut in letters, numbers and shapes. You can however choose any shape or character you prefer, our cutting process is accurate to 0.1 mm!

This is a free and usable sample. Simply pull it from the card and try it for yourself!

Our standard colour range is visible yellow, green, red, white, blue and orange. We can produce to any other colour dependent on quantity, please enquire.
